# STEARNS' GRAND LIST \$464,602,164

Tax Commissioner Corbin has issued a pamphlet containing information relative to the assessment and collection of taxes as reported to him by town officials, and which also contains abstracts of the town grand lists. The commissioner states that "the percentages of assessed valuation to fair market value for the different towns as given in the tables are those which are furnished by the assessors and others and are not of final from the state's standpoint."

The grand list of the state is reported to be \$1,464,602,164. This is an increase of 4.1 per cent. over the grand list of 1917.

The grand lists of the three principal towns of the state are given as follows: Hartford, \$152,081,877; New Haven, \$133,940,592; Bridgeport \$219,481,235.

The grand lists of other counties in the state are New Haven, \$442,884,870; New London, \$242,479,333; Fairfield, \$227,917,981; Windham, \$22,478,417; Litchfield, \$72,184,515; Middlesex, \$35,417,150; Tolland, \$21,456,376.

Hartford county with 410,265 acres has the second largest number of acres on the grand list, and their assessed value is \$119,450,849. Litchfield county with 333,141 acres has the largest assessed acreage and the value is \$9,226,212. The assessed value of land in Fairfield county is the highest in the state, being given as \$33,556,270 but the acreage is only 245,703 acres.

The average assessed value of land in the state is \$36 per acre. There are 59,711 horses and mules in the state valued at \$4,573,591. There are 152,811 meat cattle valued at \$6,573,194.

**EX-SERVICE MEN ELIGIBLE AS CENSUS ENUMERATORS**  
 Honorably discharged soldiers, sailors or marines will be employed as far as possible by the government in taking the 1920 census. The United States Civil Service Commission issued the following call to the War Department today:

Nearly ninety thousand persons will be engaged in the collection of the census and figures about Uncle Sam's gigantic family after January 1, 1920, as the date of the population of the United States. In this project nearly eighty thousand workmen will be engaged in field work while the balance will comprise the Washington office force where the tabulation, classification and statistical work will be done from the information secured from representatives of the Census Bureau in the field.

In this, as in every other Government activity, soldiers, sailors and marines will be given preference in appointments. This is accomplished by giving all service men preference on the eligible list of the Civil Service. The majorities of the Civil Service examinations are held at the War Department. The Civil Service Commission is now holding examinations for Census Bureau clerks on October 18 and November 15.

The result of the result of the Veterans Preference Bill recently passed by Congress which gives preference in original appointments to ex-servicemen in the executive branch of the government in the District of Columbia and elsewhere is being carried out by the Civil Service Commission. The bill gives preference to the widows and to the wives of injured soldiers sailors or marines who themselves are not qualified but whose wives are.

**BRANDREEGE AND McLEAN**  
 WITH THE "LAST DITCHERS"  
 (Special to the Bulletin.)  
 Washington, D. C., Oct. 2.—Senator Brandreege and Senator McLean voted to adopt all the Fall amendments, showing them to be the first to do so in the Senate. The test vote made on the weakest amendment showed that the opposition controlled the situation. A safe margin of more than four, counting men absent but paired against ratification as the treaty to new states, Senators Lodge and Brandreege express great satisfaction over the vote taken today. Senator Brandreege took a leading part in the debate, making several short but eloquent speeches in favor of the Fall amendments as part of a protective policy for the United States.
